

Youth Tobacco Survey (YTS)

2025 Questionnaire

This survey is about tobacco. We would like to know about you and things you do that may affect your health. Your answers will be used for programs for young people like yourself.

We do NOT ask your name on this survey. The answers you give will be kept private.

No one will know how you respond. Answer the questions based on what you really do and know.

Completing the survey is voluntary. Whether or not you answer the questions will not affect your grade in this class. Try to answer all the questions. If you do not want to answer a question, just leave it blank. There are no wrong answers.

The questions that ask about your background, and who is most or least likely to fit with your main group of friends, will only be used to describe the types of students completing this survey. The information will not be used to find out your name. No names will ever be reported.

Please read every question. Try to answer all the questions. When you are finished, follow the instructions of the person giving you the survey.

Thank You Very Much For Your Help.
