

South Carolina **HealthCompass**

The **South Carolina Health Compass** features interactive dashboards containing the most comprehensive county-level health information available.

The data, which will be updated regularly, can be used in Community Health Assessments and by community coalitions, the General Assembly, local municipalities, colleges, and students to inform health program planning, policy, education, and grant activities.

The unique dashboards contain over **120 health indicators** based on the seven data chapters featured in the 2023 South Carolina State Health Assessment.

Each chapter displays health indicators with maps, trend analysis, demographic breakdowns, US and Healthy People 2030 comparisons where available and county-specific summary tables.

How to Access **SC Health Compass**

Scan the QR code or use this link: dph.sc.gov/schealthcompass

THEN CLICK ON THE **ICONS** FOR EACH CHAPTER'S DASHBOARD:

POPULATION

HEALTHY COMMUNITIES

HEALTHY MOTHERS
