

I got the mpox vaccine for
peace of mind and to know
I'm **protected**.
It's **safe and effective**.

Meeting someone new?

Understand your risk of mpox.

1

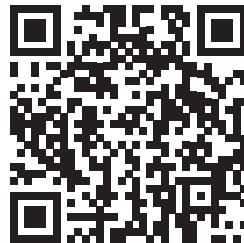

Ask if they've been ill, had recent rash, or potential exposure recently.

2

Ask if they've been vaccinated against mpox.

3

Agree to stay in contact with partners in case someone doesn't feel well later.
