

South Carolina Bureau of EMS Data Overview

DHEC Data Symposium 2016

South Carolina Department of Health and Environmental Control
Healthy People. **Healthy Communities.**

SC DHEC Bureau of EMS

- 18 Personnel
- Three Divisions (EMS, Trauma, Data)
- 4 Dedicated to data, process improvement, and registries (Trauma and Stroke)

SC EMS SYSTEM

256 Agencies

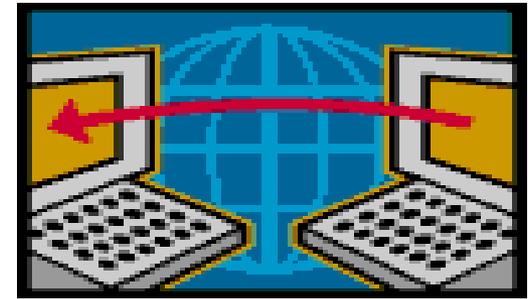

- Ambulances- 1868
- Rotor Craft- 38
- Fixed Wing- 9
- MCI Buses 7
- Total: 1922 Transport Capable
- More than 210 licensed First Responder Fire Dept vehicles

Why do we think we have good data?

Regulation 61-7, that's why!

- Requires submission of all ePCRs
- 24 – 72 Hours
- Each licensed agency **MUST** have a data manager

- Each agency must meet data quality score requirements of 1 1/2 x the state average score or less.

Section 1301. Patient Care Reports.

- A. Each licensed provider must create and submit an electronic patient care report (ePCR) for each patient contact regardless of patient transport decision.
- B. The primary care attendant is responsible for documenting all patient contact, care, and transport decision within the ePCR. All required documentation must be completed within twenty-four (24) hours of the conclusion of call.
- C. Each licensed provider must submit its ePCRs into PreMIS within seventy-two (72) hours of the conclusion of call.
- D. When transporting to an emergency room (ER), patient ePCR shall be submitted to the ER within thirty (30) minutes of the completion of the call. In lieu of that, a paper pre-run information sheet may be substituted until the ePCR is sent. ePCR information shall be sent no later than twenty-four (24) hours from completion of the call.

If you want to know ...

How many female patients over 55 with a chief complaint of chest pain received oxygen, aspirin, NTG, and a 12 lead EKG within 10 mins of Paramedic contact...we can tell you. By state, county, agency, zip code, or even by specific paramedic if its your agency...

If you want to know if male paramedics or female paramedics performed the actions more quickly, we can tell you that as well...

Requesting Data ---

- Is easy !
- Contact the Data Division Director
- Will provide a form for formal request
- Will provide guidance on what can and cant be released
- Will provide you an approximate turn around time for your data in the format you request

South Carolina Trauma Registry

DHEC Data Symposium 2016

South Carolina Department of Health and Environmental Control
Healthy People. **Healthy Communities.**

“A trauma registry is a disease-specific data collection composed of a file of uniform data elements that describe the injury event, demographics, prehospital information, diagnosis, care, outcomes, and costs of treatment of injured patients.”

(Resources for optimal care of the injured patient, 2014)

Definition of Trauma Patient

A trauma patient is defined as a patient who sustains a traumatic injury and meets the inclusion/exclusion criteria approved by the Trauma Advisory Council and included in this data dictionary.

SC Trauma Data Dictionary, 2016

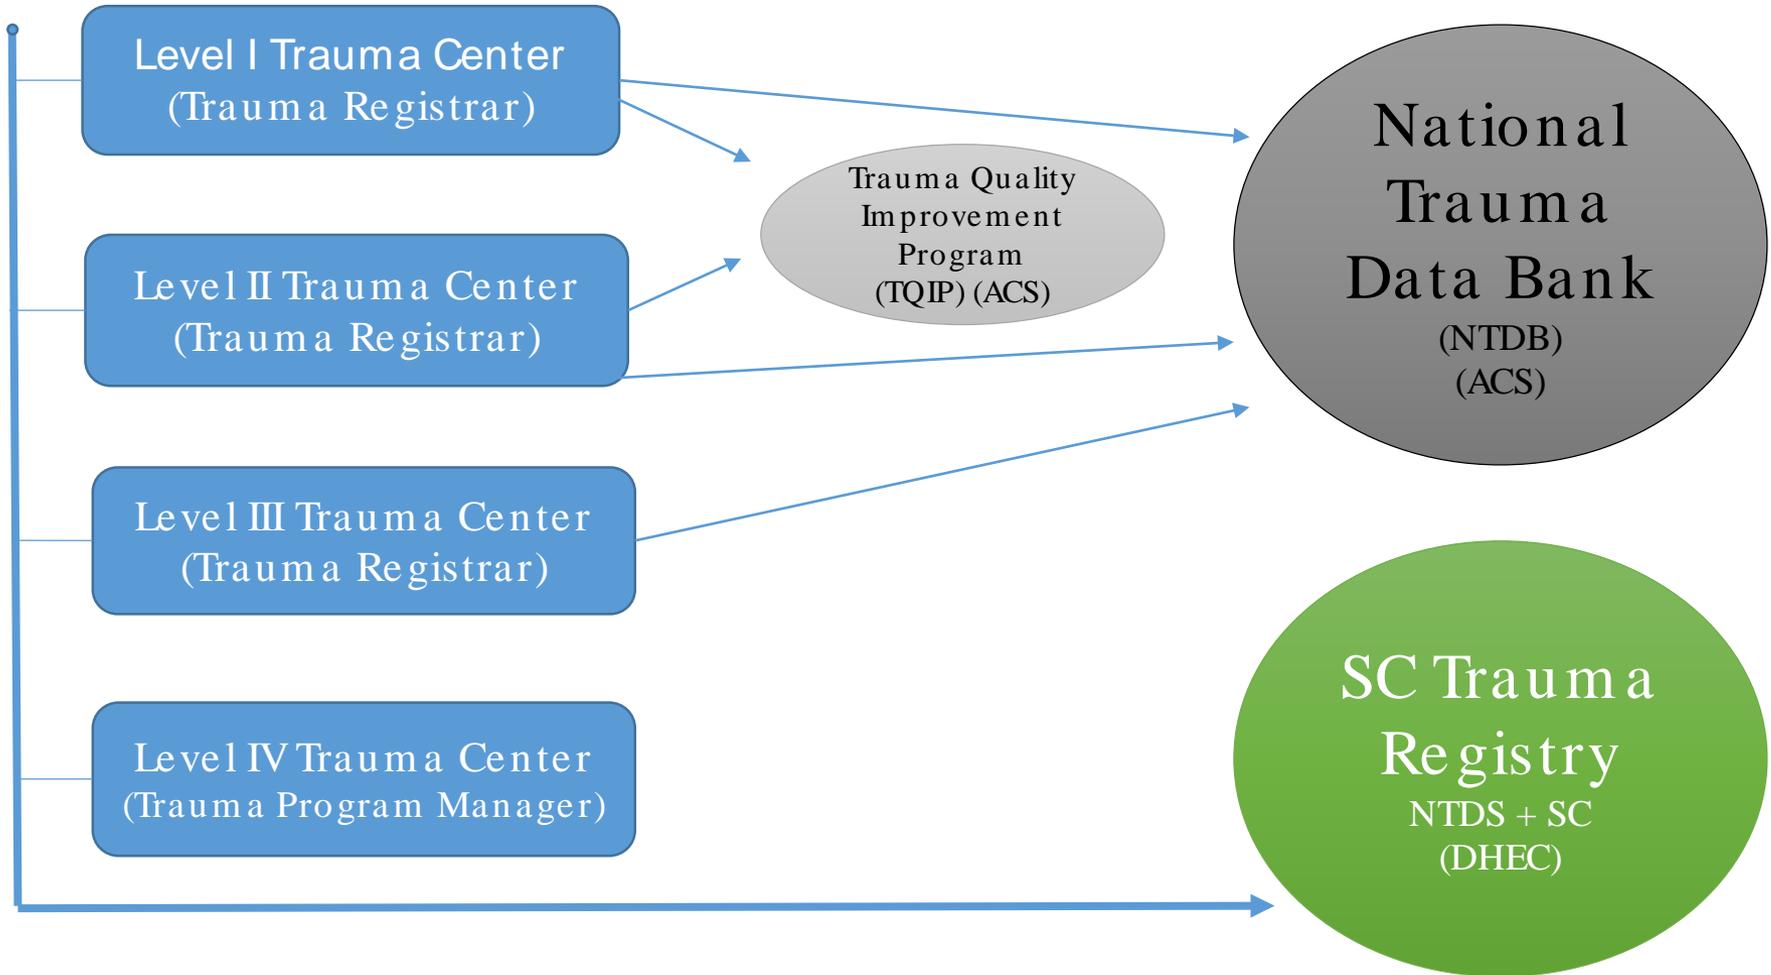

SC Trauma Registry Inclusion Criteria

At least one of the following injury diagnostic codes defined in the International Classification of Diseases, Tenth Revision (ICD-10-CM):

- *S00-S99 with 7th character modifiers of A, B, or C ONLY. (Injuries to specific body parts – initial encounter)*
- *T07 (unspecified multiple injuries)*
- *T14 (injury of unspecified body region)*
- *T20-T28 with 7th character modifier of A ONLY (burns by specific body parts- Initial encounter)*
- *T30-T32 (burn by TBSA percentages)*
- *T79.A1-T79.A9 with 7th character modifier of A ONLY (Traumatic Compartment Syndrome – initial encounter)*

AND MUST INCLUDE ONE OF THE FOLLOWING IN ADDITION TO (ICD -10-CM S00-S99, T07, T14, T20-T28, T30-T32 and T79.A1-T79.A9):

- Hospital admission OR
- Patient transfer via EMS transport (including air ambulance) from one hospital to another hospital OR
- Death resulting from the traumatic injury (independent of hospital admission or hospital transfer status)

Trauma Data Utilization

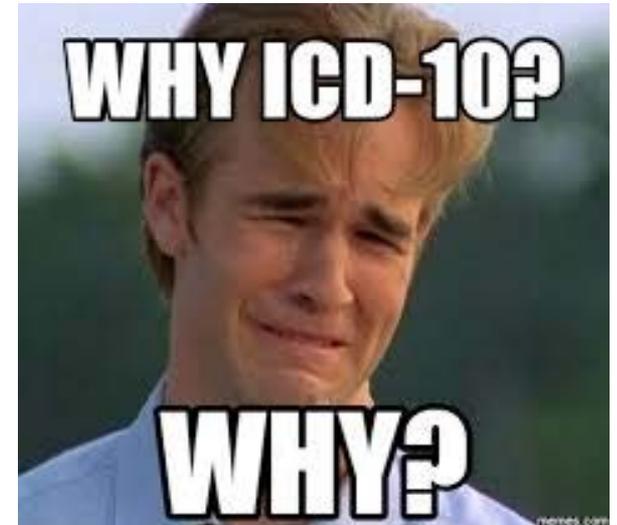

- Population-based perspective of injury
- Determine leading mechanisms of injury
- Underserved areas of the state
- Outcomes of injured patients
- Trauma system improvement efforts

Challenges for the SC Trauma Registry

- Data homogeneity
- Challenges with registry vendor
- Timely and complete data submissions
- Trauma registrar education
- Formal state data request process
- State employee turnover
- Multiple registries for trauma system (EMS registry, trauma registry, post-acute care data)
- Lack of resources and references on DHEC website for TCs, trauma program managers, and trauma registrars

How is 2017 looking so far?

- RFP for trauma registry vendor
- SC Trauma Registry Data Dictionary
- Areas to benefit from having Level IV TC
- Focus on registrar education
- Registry data for regional PI initiatives
- Formalizing state trauma data request process
- SC Trauma Registry User's Group

Painting a better picture with the trauma data...

- Rehabilitation and outcome data
- Integrating multiple registries
- Recruiting and submission of non-trauma center data
- TQIP regional collaborative
- Best practices for the South Carolina Trauma System

Who to contact at DHEC?

Victor Grimes, MPH

Bureau of EMS Data Director

grimesve@dhec.sc.gov

Office: (803)545-4262

Alia M. Lien, CSTR

State Trauma Registrar

lienam@dhec.sc.gov

Office: (803) 545-4481

Mobile: (803) 542-1139
