

SC DHEC Bureau of Laboratories 2011 West Nile Virus Testing Summary – FINAL

Updated Friday, March 23, 2012

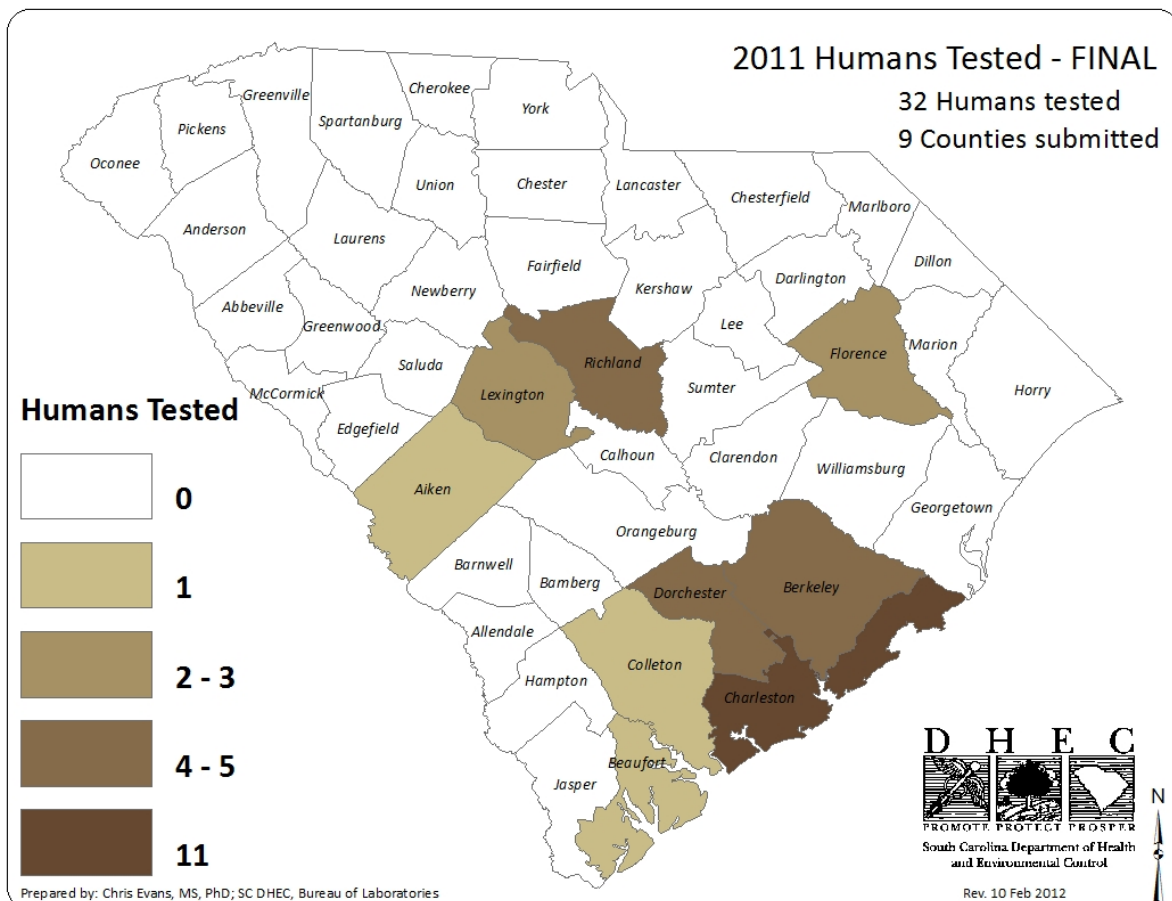

Statewide Totals:

Type	Number Tested
Human	32
Bird	20
Mosquito	36,116 (1,501 mosquito pools[†])
Equid / Mammal	15[‡]

† A “mosquito pool” is defined as a collection of mosquitoes (usually 1 to 50 specimens) that were pooled together for testing purposes and consists of the same mosquito species that were collected from the same location on the same date.

‡ Clemson University Veterinary Diagnostic Center performs most of the WNV testing of horses/mammals.
