

## Immunization Rates

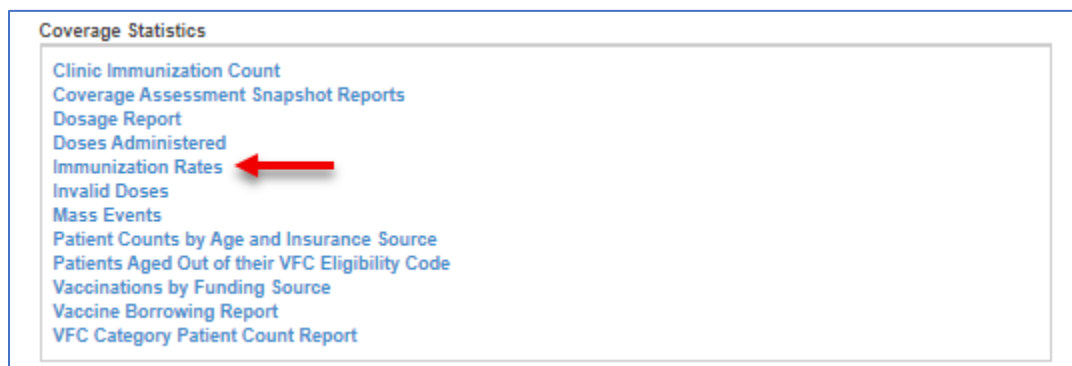

Run this report in SIMON to evaluate immunization rates for your clinic population.

1. From the home screen, select the 'Reports' module.

The screenshot shows the SIMON home screen. On the left is a blue navigation menu with the following items: Home, Patients, Immunizations, Education, IZ Quick Add, Inventory, Clinic Tools, Program Tools, Reports (highlighted with a red arrow), and VTrckS Interface. The main content area displays a welcome message: "WELCOME TO THE STATEWIDE IMMUNIZATION ONLINE NETWORK". Below this is a "Default Provider/Clinic" section with a text box containing "Provider/Clinic : BRITTANY TYPE 3 INVENTORY, BRIT TYPE 3 INVENTORY" and a prompt "SELECT A CLINIC BY TYPING PROVIDER, CLINIC, VFC PIN, OR CLINIC CODE". A "News" section below that features a message dated [03/29/2019] titled "Welcome to 19.6 Development" from "Envision Technology Partners".

2. Under the category of 'Coverage Statistics' you'll select the report titled 'Immunization Rates'.

The screenshot shows a list of reports under the "Coverage Statistics" category. The items listed are: Clinic Immunization Count, Coverage Assessment Snapshot Reports, Dosage Report, Doses Administered, Immunization Rates (highlighted with a red arrow), Invalid Doses, Mass Events, Patient Counts by Age and Insurance Source, Patients Aged Out of their VFC Eligibility Code, Vaccinations by Funding Source, Vaccine Borrowing Report, and VFC Category Patient Count Report.

- Complete the fields to reflect the criteria you're interested in. The 'Appropriate Statistics Summary' returns the percent of patients meeting criteria selected and the 'Patients Not Properly Immunized Detail' returns a list of patients not meeting the immunization criteria selected.
