

CBG 'n Me

-Card Games-
SLAP JACK

Slap Jack

Number of Players:

- 2 or more

Goal of the Game:

- The player who collects all 52 cards wins the game

Instructions:

- Deal all the cards, face down, to all the players. Each player must put their cards into a pile face down.
- Each player one at a time, takes a card from their pile and places it face up in the center of the table.
- When the card facing up is a "Jack", players try to be the first to slap their hand down on it.
- The first player to slap the "Jack" takes it and all the cards underneath it.
- If more than one player slaps the "Jack", the one whose hand is directly on top of the "Jack" gets the pile.
- If a player slaps a card that is not a "Jack", they must give a card face down to the player of that card.
- When a player has no more cards left they are out of the game, the one who collects all the cards WINS!
