

Handprint Flower & Fingerprint Bugs

Supplies

- Glue
- Puff balls (or buttons)
- Paper
- Paint and paintbrush
- Water

Instructions

Step 1: Find a round object, position in the center of paper and trace it.

Instructions

Step 2: Cover hand in paint then place handprint(s) around the circle.

Instructions

Step 3: After washing the paint off your hand, grab your puff balls (or buttons) and glue them in the center of the circle.

Instructions

Step 4: Paint the flower's stem

Instructions

Optional: Use your finger prints to make leaves on stem.

Instructions

Step 5: Use your fingerprints to make bugs like caterpillars or butterflies.

Instructions

Step 6: Let it dry, and now you have a handprinted flower and fingerprint bugs.
