

SOUTH CAROLINA BOARD OF HEALTH AND ENVIRONMENTAL CONTROL

**Placement of Methiopropamine in Schedule I for Controlled Substances**

WHEREAS, pursuant to S.C. Code Section 44-53-160(C), the S.C. Board of Health and Environmental Control (Board) shall designate a substance as a controlled substance by scheduling it in accordance with an order effecting federal scheduling as a controlled substance;

WHEREAS, the U.S. Department of Justice, Drug Enforcement Administration (“DEA”), issued a final rule on December 9, 2022, placing N-methyl-1-(thiophen-2-yl)propan-2-amine (methiopropamine), including its salts, isomers, and salts of isomers in schedule I of the federal Controlled Substance Act, effective January 9, 2023, *Federal Register* 87, Number 236, pp 75470-75473;

WHEREAS, methiopropamine has a high potential for abuse, no currently accepted medical use in treatment in the United States, and lack of accepted safety for use under medical supervision; therefore, methiopropamine should be placed in schedule I of the federal Controlled Substances Act; and

THEREFORE, the Board of Health and Environmental Control adopts the federal scheduling of methiopropamine and amends Section 44-53-190 of the South Carolina Code of Laws by adding and designating into Schedule I of the South Carolina Controlled Substances Act: N-methyl-1-(thiophen-2-yl)propan-2-amine, including its salts, isomers, and salts of isomers.
