Explanation of any unspent funds (to be provided only if unspent funds remain at the end of the fiscal year):

LVS relies on local eyecare providers, including optometrists, ophthalmologists, anesthesiologists, and surgery centers, to provide our services. Medical billing for these procedures always lags significantly behind the actual date of service due to the cumbersome nature of billing. For this reason, there is a chunk of funding which has already been allocated to eyecare services provided, as outlined in our contract, but which have not been paid out by LVS at this time. This is the primary reason for having not spent all funds at this time. Additionally, in an effort to steward these funds well, LVS is leveraging these funds against other sources of funding throughout the state to increase the total number of South Carolinians served by DPH funds. For this additional reason, there are some funds which have not yet been allocated to a specific client or service until we secure additional funding throughout the state.

Expenditure Certification

The Organization certifies that the funds have been expended in accordance with the Plan provided to the Agency Providing the Distribution and for a public purpose.
