# Sun Prints

Supplies

- Colorful construction paper
- Nature objects (leaves, flowers, etc.)
- Small rocks (or other items to use as weights)

Instructions

Step 1: Collect several nature objects

Instructions

Step 2: Find little rocks/stones

*Note this is to keep nature objects from flying off the paper

Instructions

Step 3: Place the items you collected on a piece of construction paper and leave out in the sun for 2-3 hours

Instructions

Step 4: After 2-3 hours lift the objects off the paper, results should look like the above picture.
